

WORKSHOP ON

* META-RESEARCH AND SYSTEMATIC REVIEWS

About the Workshop

Meta-research is a study of research methods, reporting, reproducibility, evaluation, and incentives. It follows an interdisciplinary approach to ensure quality and robustness of science. A systematic review is one of the approaches used to summarize the results of research available on a particular topic or clinical question. The workshop will include an introduction to Meta-research and Systematic Reviews.

The participants of the workshop will get an overview of meta-research approaches, the process of a systematic review, and the impact of meta-research. The workshop covers a session on reporting guidelines along with hands-on activity on appraisal of methodological quality, risk of bias in published papers, and extraction of information from clinical trials using data extraction form. The workshop will be beneficial to post graduate and doctoral students as well as researchers of Health sciences, Pharmacy, AYUSH and Life sciences streams.

Date & Time

Friday, 28th June 2019
9.00 AM to 1.00 PM

Venue

Sukhatme Hall, Interdisciplinary
School of Health Sciences,
Savitribai Phule Pune University,
Pune.

About Speaker

Dr Rahul Mhaskar is the Director, College of Medicine Office of Research and an Associate Professor of comparative effectiveness research and evidence-based medicine at Department of Internal Medicine, at the University of South Florida, USA. He investigated numerous state and nationally funded research projects. He led the investigation of the methodological quality of clinical trials conducted by the National Cancer Institute's co-operative groups. He received the prestigious 'Thomas C Chalmers Award' in 2011 in the field of evidence-based medicine from the Cochrane Collaboration.

Registration

The workshop is limited to 30 seats. Please [click here](#) to register. The last date of registration is **20th June, 2019**. The selection will be based on the topic and SOP.
